
RAW UNEDITED, ORIGINAL REVIEWS:

I have been seeing Attila for about 4 years at Hand & Stone. Highly recommended if you're in need of a deep tissue massage and don't mind a firm thumb or elbow when needed. He has helped me address a few chronic issues and has a passion for continuing learning, always aiming toward improving his knowledge and practice. Disclaimer: Book your appointments well in advance. He is in very high demand.

Attila is a great massage therapist!

Attila is wonderful. He truly helps me heal from my slip disc condition. Highly recommended!
Positive: Communication, Quality

This place is the best location in Toronto, if you need a massage tailored to your needs. I went there yesterday and had a massage with Attila, and he always ask if there is anything specific that I need. After explaining my current situation with my back, after a recent sciatica flare up, he customized the massage and incorporated some exercises that have worked wonders on my back. Today is the best I have felt in two weeks, and the pain is almost nonexistence. Thank you, Attila, for being my Saviour. I will be back in two weeks. Paulette

Communication, Quality, Professionalism

Although it turns out to be awesome experience, it would still be better to be told well in advance that I would be treated with a male therapist (I'm a female). I was a little surprised and felt a little bit strange at first, although I'm quite satisfied with his service.

Attila is the reason I visit He has incredibly changed my pain and therapy following an injury and provides me a lot of relief.

I had a massage with _____ 2 months ago and it was the worst experience because I couldn't get an appointment with Attila who is AMAZING! You should hire more therapists like Attila and _____ who retired during covid.
Thank you so much for everything. I had lingering neck pain for almost a week and in one visit Attila worked magic! See you soon!

Having chronic pain, I've been to many massage therapists - Attila has been the only therapist to successfully relieve the tension and pain in my shoulders and neck due to his technique and awareness of body connectedness. Thank you!

Attila Kis is amazing. He is a true professional in this line of business. Cannot wait to go back.

Attila was excellent and managed to relieve my pain quickly, he knew exactly where to apply pressure. He made me feel safe and welcomed. Booked again with him for the following week!

My therapist Attila is very effective in finding and working on problem areas. I always feel much more relaxed after each session, thanks!

Receptionists were very friendly and Attila is great at his job. Only feedback, which is out of your staff's control, is the general decor of the place, reception area and massage rooms could use a bit of a facelift.

Attila was fantastic.

The massage therapist (Attila) is very attentive, knowledgeable, and professional. He knows how to make the experience relaxing while also therapeutic.

Attila is my massage therapist, and he is wonderful. He is so knowledgeable and really helps me with my problem areas. He's technique is very effective in helping me relieve stress and I appreciate his expertise.

I've consistently had good experiences at this hand and stone location. Attila is my regular therapist and he's great at working my problem areas and understanding my needs as well as explaining everything.

Attila was great and really helped me relax and target pain areas. Appointment was on time and price was reasonable.

I've been a member for about two years. The staff at the Dan Leckie location have always been very kind and patient when booking appointments for me (80 min, which are difficult to get at times). Attila my therapist always provides me with at home tips to help me with my pain and is the king of locating all the "red X's" hiding in my body.

Attila is a phenomenal massage therapist who really helped with my pain and made me feel so comfortable. I will be returning to see him again. The only downside was the time was not super convenient but considering it was a same day appointment, and I was in a lot of pain I was very happy with the result.

Attila is really thorough and expert.

Attila is a magician!!!.... always zones on what needs work whether you think you need it or not. He's always right! The receptionist on the day of my visit was exceptional. Made me feel very welcomed back after 2 years and spent time answering my questions and inquiries. Not once did I feel she was rushing me and was so extremely patient. Sorry I didn't catch her name. Great to be back. Always a great experience.

Never disappointed with the RMT at this hand and stone location. Professional and highly skilled RMT and the receptionists are always friendly and welcoming. Highly recommend this location and Attila.

Attila was very knowledgeable and skilled. The receptionist was also very helpful in taking care of everything.

My massage therapist is usually Attila Kis. I usually come for sports specific massage but also stress/sitting all day for my job. Attila is great, really effective at applying good pressure without painful slips/over pressure etc. I've tried a few, I think he's one of the best at this location.

Attila was wonderful. He was professional but also very friendly and made me feel comfortable. This was my first hot stone massage, and it was amazing. I'll definitely be booking another appointment with Attila.

My massage therapist Attila is AMAZING and knows exactly how to pinpoint issues in the body. The reception answered the phone promptly and was attentive and accommodating.

Attila is by far the best RMT I have ever had. Highly recommend his skills to anyone. He is professional, courteous, and extremely good at his job. I will always return as long as he is working there!
